SUMMARY

Senior Product Designer with 6+ years in fintech, B2B SaaS, and government products. Designed a SEBI-registered trading app end to end on iOS and Android, 7 live mobile apps and web portals for logistics, disability care, IoT, and sports, and digital-asset custody products, from concept to shipped UI. Also built design systems for 10+ AI products and for a trading app with 10M+ downloads, where production shipped faster with fewer UI bugs.

PORTFOLIO & CASE STUDIES

CORE COMPETENCIES

Product & UI Design

Visual Design & Craft

Interaction Design & Prototyping

Complex FinTech Workflows

Trading & Investing Platforms

Dashboards & Data Visualization

Design Systems & Tokens

Accessibility (WCAG 2.1)

Responsive Web & Mobile

PM & Engineering Partnership

Design QA & Handoff

AI-Assisted Design Workflow

EXPERIENCE

01/2026 – 09/2026

Contract

Product Designer I (Design Systems & UI Engineering)

Upstox · Trading and investing app, 10M+ downloads | Mumbai, India · Remote

- Shipped production faster with fewer UI bugs after merging 42 component files into Arc: 30+ slot-based components with working Code Connect, used by 5 product teams.
- A shared change, like a label style, is now made once instead of in up to 42 files; teams praised the new consistency.
- About 95% of the mobile app is built from Arc components linked to code with Code Connect.
- Cut repetitive manual design work with 4 TypeScript Figma plugins and AI agentic skills; developers used the plugins in daily handoff.
- Checked components against WCAG contrast and accessibility rules with Accessibility Review, a self-built AI agent skill featured by Figma.
- Led and mentored 3 system designers and kept the changelog for Arc releases.

09/2024 – 05/2026

Contract

System Designer

LightBeam AI · US AI company | United States · Remote

- Designed components and Figma Variables patterns for a design system powering 10+ LightBeam.ai products, implementing the tokens with frontend engineers.
- Helped define naming, versioning, and usage guidelines so other teams could adopt the system.

06/2023 – 01/2026

Full-time

Product Designer

eThink Solutions · Apps published by DIJ Group | Brisbane, Australia · Remote

- Designed 7 live mobile apps and web portals end to end for logistics, disability care, IoT, and sports, including Elevate Player, Elevate Coach, Mycare Centre, GoDrive, and GoYard.
- Designed the eThink design system in Figma, a component library adopted by 3 product teams, removing over a third of duplicate design work.
- Passed third-party WCAG 2.1 audits on 15+ live releases of government-facing products; mentored 2 junior designers.

09/2024 – 02/2025
Contract

Senior UI & System Designer

StockWiz Technologies LLP · SEBI-registered trading app | Bengaluru, India · Remote

- Designed the full Stryke trading app UI end to end for iOS and Android (10K+ downloads), plus its design system.
- Covered real-time dashboards, F&O analytics, market heatmaps, portfolio tracking, and brokerage integration.
- Simplified dense screens with progressive disclosure and data visualization patterns, working directly with founders and product owners through to engineering-ready specs.

03/2022 – 06/2023
Full-time

UI Designer

Propine · Digital-asset custody and tokenized bonds | Singapore · Remote

- Designed 470+ screens across 3 role-based products for digital-asset custody and tokenized bonds, plus a mobile approver app covering 2FA onboarding, portfolios, transactions, and reporting.
- Designed maker-checker approvals and an 8-step bond-issuance wizard on a 500+ variant library reused across 4 product files.

07/2020 – 02/2022
Full-time

Early Career: Junior UI Designer & UI Designer

eThink Solutions · GoProtoz Design Studio | Australia · India

- **eThink, Junior UI Designer (06/2021 – 02/2022)**: Delivered 10+ live applications end to end, including a government compliance portal, from wireframes to high-fidelity UI.
- **GoProtoz, UI Designer (07/2020 – 05/2021)**: Created the GoProtoz Design System (28+ component sets, 150+ state variants) and shipped mobile and web UI for healthcare and food-tech products.

PROJECTS & PUBLISHED WORK

- **Figma Community (9 published resources)**: Accessibility Review AI agent skill (208 users, 72 likes) and developer-handoff (300 users, 125 likes), plus ds-compliance-review, what-changed, and layer-cleanup.
- **ZenTara Design System**: Published an open-source Figma system with 100+ components and design tokens, with a public documentation site. [Figma Community](#)
- **IPO Plus**: Designed and launched a real-time Indian IPO tracker on Google Play (500+ downloads), App Store (iPhone, iPad, Mac), and web: allotment checks, live subscriptions, GMP, and a 3,000+ stock NSE/BSE screener. [ipoplus.co.in](#)
- **Desktop Apps**: Designed and launched ShabdaTara, private, local-first voice dictation for Mac (Mac App Store; Windows soon) that types at the cursor in any app in English, German, Hindi, and Russian, with English cleanup styles and no account or API key; plus DeskDangles, a Mac menu-bar utility. [ShabdaTara](#) · [DeskDangles](#)

EDUCATION

2016 – 2019

Bachelor of Computer Science

[Atmiya University](#)

2013 – 2016

Diploma in Computer Science

[Christ Polytechnic Institute](#)

CERTIFICATIONS

UI Collective, 2026: Advanced Design System · Advanced Accessibility for Designers · WCAG Basics and Fundamentals · How to Present Your Design Work · AI Product Research with Gemini and Claude

TECHNICAL SKILLS

Product & UI

UI design, visual design, interaction design, user flows, wireframing, prototyping, high-fidelity UI, responsive web, iOS, Android

Design systems

Component library, design tokens, Figma Variables, Code Connect, auto layout, documentation, governance

FinTech domain

Trading and investing, F&O analytics, portfolio tracking, digital assets, tokenized bonds, maker-checker approvals, 2FA onboarding

Tools & quality

Figma, Figma plugins, AI agentic skills, WCAG 2.1, design QA, developer handoff
